

## Country Summary: Cardiac Catheter Interventions, European Statistics 1999

Representative/Delegate for Austria: volker.muehlberger@uibk.ac.at

1	<b>AUSTRIA 1999: 8.05 Mio</b>	
2	<b>n=35 fix +1 mobile cath. Rooms</b>	number
3	cath. operators	<b>166</b>
4	PTCA centers	<b>22</b>
5	PTCA operators	<b>84</b>
6	PTCA centers with cardiac surgery	<b>16</b>
7	PTCA centers with cardiac database	<b>18</b>
	<b>CORONARY</b>	number
8	<b>coronary angiography (cases)</b>	<b>32.864</b>
9	<b>PTCA (cases)</b>	<b>9.276</b>
10	- multivessel PTCA (in 1 session)	<b>1.093</b>
11	- PTCA for ongoing infarction	<b>845</b>
12	- PTCA during diagnostic study (ad hoc)	<b>6.671</b>
13	- radial/brachial approach	<b>214</b>
14	- puncture site closing device	<b>1.552</b>
15	- infarction (by any definition)	<b>77</b>
16	- emergency CABG	<b>25</b>
17	- in-hospital death	<b>52</b>
18	<b>stent (cases)</b>	<b>6.883</b>
19	- multiple stents	<b>1.132</b>
20	<b>directional atherectomy</b>	<b>4</b>
21	<b>rotablator</b>	<b>174</b>
22	<b>laser catheter or wire</b>	<b>1</b>
23	<b>ultrasound therapy</b>	<b>15</b>
24	<b>brachytherapy</b>	<b>19</b>
25	<b>clot catcher/ remover</b>	<b>0</b>
26	<b>intracoronary pressure</b>	} 103
27	<b>intracoronary Doppler</b>	
28	<b>intracoronary ultrasound</b>	<b>355</b>
29	<b>intra-aortic balloon pump during PTCA</b>	} 62
30	<b>percutaneous left ventricular assist pump</b>	
31	<b>other devices</b>	<b>113</b>
32	<b>platelet glycoprotein IIb/IIIa antagonist</b>	<b>1.548</b>
33	<b>ionic low-osmolar contrast medium</b>	<b>1.161</b>
34	<b>nonionic contrast medium</b>	<b>4.642</b>
35	<b>electrophysiology: diagnostics</b>	<b>1.614</b>
36	<b>electrophysiology: ablation</b>	<b>1.005</b>
37	<b>iliac or leg artery intervention</b>	<b>-</b>

38	<b>renal artery intervention</b>	<b>-</b>
39	<b>carotid artery intervention</b>	<b>60</b>
*	<b>Transmyocardial Laser Revascularization</b>	<b>12</b>
	<i><b>OTHER</b></i>	
40	<b>alcohol ablation for septal hypertrophy</b>	<b>9</b>
41	<b>mitral valvuloplasty (interventional)</b>	<b>19</b>
42	<b>PDA closure by catheter</b>	<b>3</b>
43	<b>PFO closure by catheter</b>	<b>5</b>
44	<b>ASD closure by catheter</b>	<b>16</b>
45	<b>VSD closure by catheter</b>	<b>0</b>
